ANGSAGAN ISLYAMGALIYEV

Senior Full-Stack .NET & React Engineer

Astana & Atyrau, Kazakhstan | Phone: +77001002400 | Email: ansaganie@hotmail.com | LinkedIn: linkedin.com/in/ansaganie (https://linkedin.com/in/ansaganie) | GitHub: github.com/ansaganie (https://github.com/ansaganie)

PROFESSIONAL SUMMARY

Senior Full-Stack Software Engineer with 4+ years of commercial enterprise software development experience and 6+ years in high-reliability energy sector operations. Specialized in ASP.NET Core, .NET 8, React, and Microsoft Azure, modernizing mission-critical enterprise applications for Chevron and Tengizchevroil. Demonstrated success in eliminating performance bottlenecks: slashing critical screen load times from 30 minutes to 1.5 seconds, migrating legacy storage to offline IndexedDB PWAs, and accelerating CI/CD deployment pipelines by 6x.

TECHNICAL COMPETENCIES

Languages & Frameworks: C#, .NET 8, ASP.NET Core Web API, TypeScript, JavaScript (ES6+), React 18

Frontend & Visualization: React, Redux Toolkit, TanStack Table, Visx, D3.js, React Flow, Tailwind CSS, Vue.js, Dexie.js (IndexedDB), HTML5/CSS3

Backend & Cloud: ASP.NET Core Web API, .NET 8, Entity Framework Core 8, RESTful APIs, Clean Architecture, SQL Server, BFF Pattern, Microsoft Azure, Azure DevOps, Azure Service Bus, Azure Logic Apps, Azure Functions, Docker, CI/CD Pipelines, SonarQube

Architecture & Practices: Offline-First PWAs, Microservices & Distributed Systems, Policy-Based Authorization (MSAL), Performance Profiling, Domain-Driven Design

WORK EXPERIENCE

Senior Software Developer

Jan 2024 – Present

Tengizchevroil / AtyrauTechInvest LLP (Chevron Central Agile Team) — Atyrau, Kazakhstan

Core engineer in Chevron's Central Agile Team driving Turnaround (TA) Progress and Turnover Notes digitalization across web, mobile PWAs, and BFF microservices.

- Slashed critical operational screen load latency from ~30 minutes to 1.5 seconds for turnaround field teams via .NET 8 / EF Core 8 query tuning and client-side IndexedDB caching.
- Engineered offline-capable Progressive Web Application (PWA) capabilities and migrated browser storage from deprecated WebSQL to IndexedDB using Dexie.js with zero data loss for 500+ users.
- Modernized backend Web API services from ASP.NET Framework 4.8 / EF6 to .NET 8 / EF Core 8, implementing custom policy authorization via Azure App Registration and MSAL.
- Architected enterprise system integrations with Oracle Primavera project management utilizing Azure Service Bus, Logic Apps, and WebJobs, cutting sync delay from 1–3 hours to minutes.
- Contributed to Chevron internal TypeScript MSAL authentication libraries and distributed developer toolchains.

`.NET 8` `ASP.NET Core Web API` `C#` `React` `TypeScript` `IndexedDB` `Dexie.js` `Entity Framework Core 8` `Azure Service Bus` `Azure Logic Apps` `Azure WebJobs` `MSAL` `Tailwind CSS`

Software Developer

Sep 2022 – Jan 2024

Tengizchevroil / Norsec Delta Projects (Tengizchevroil) — Atyrau, Kazakhstan

Full-stack frontend and data visualization engineer developing enterprise applications TEA-RECS (Wombat), VISI (Visual Inspection of Shut-Ins), and Whitespace Dashboard (WSD).

- Engineered dynamic financial evaluation tools for Tengizchevroil Economics Acceleration via Rapid Evaluation Cycle Solution (TEA-RECS / Wombat), recognized as a key tool for Integrated Business Planning (IBP).
- Developed dual-axis virtualized smart data grids combining TanStack Table with React Window and React Context API for massive tabular datasets.
- Built customized interactive telemetry charts using Airbnb Visx and oil plant topology flowcharts in React Flow editor mode.
- Accelerated .NET WebApp deployment pipelines on Azure DevOps, reducing release turnaround from ~90 minutes to ~15 minutes.
- Refactored oilfield simulation data backup workflows, significantly lowering Azure Blob Storage expenditure.
- Implemented CI pipelines with SonarQube SAST security and vulnerability scanning on development branches.

`React` `TypeScript` `.NET 6` `C#` `Visx` `TanStack Table` `React Window` `React Flow` `Redux Toolkit` `Material UI` `Azure DevOps` `Docker` `SonarQube`

Frontend Developer

Feb 2022 — Sep 2022

Aviata.kz — Almaty, Kazakhstan

Frontend developer for Kazakhstan's leading travel and ticketing platform (Aviata / Chocotravel).

- Migrated customer-facing flight and train booking flows of chocotravel.com from a legacy PHP monolith to a Vue.js Single Page Application (SPA).
- Built responsive mobile web-view components and design-system UI components with Vue 3, Pinia, and Tailwind CSS.
- Participated in frontend architecture, performance profiling, and code modularization decisions.

`Vue.js` `TypeScript` `Pinia` `Vue Router` `Tailwind CSS` `Vue Test Utils` `REST APIs`

Geologist

Oct 2018 — Feb 2022

Karachaganak Petroleum Operating B.V. (KPO) — Aksay, West Kazakhstan, Kazakhstan

Geological monitoring specialist managing geodynamic field observation networks and industrial telemetry verification.

- Coordinated geodynamic monitoring across a network of seismological stations and deep monitoring wells for gas and groundwater surveillance.
- Assessed surface deformation risks and analyzed high-volume seismological data for field safety compliance.
- Developed rigorous data analysis, risk mitigation, and industrial telemetry verification skills that now underpin robust software engineering practices.

`Geodynamic Monitoring` `Telemetry Analysis` `Seismic Data Verification` `Risk Assessment`

Mud Logging Engineer

Oct 2015 — Oct 2018

Schlumberger (SLB Logelco Inc) — Atyrau, Kazakhstan

Wellsite telemetry engineer monitoring drilling parameters, rock cuttings, and real-time computer data acquisition systems.

- Operated real-time computerized sensor telemetry systems recording rig operations, mud flow, and drilling mechanics 24/7.
- Acted as primary wellsite safety monitor detecting pressure anomalies and hazardous gas kicks.
- Formulated technical data reports for drilling superintendents and operating company engineers.

`Real-Time Telemetry` `Industrial Sensors` `Wellsite Safety Systems` `Data Acquisition`

ENTERPRISE HONORS & RECOGNITIONS

Chevron Surface Digital Platform (SDP) Challenge Coin (Chevron) 2024
Invaluable contribution to the upgrade of the TA Pro and TO Notes applications to Progressive Web Apps.

TCO Recognition Certificate for Turnaround Digitalization (Tengizchevroil) 2024
Excellent Performance in Turnaround Digitalization.

TCO Recognition Certificate for TEA-RECS (Tengizchevroil) 2023
Development of the TEA-RECS applications as a key tool for Integrated Business Planning (IBP).

CERTIFICATIONS & CREDENTIALS

Certified SAFe® 6 Practitioner — Scaled Agile, Inc. 2023-05 Verify ↗ (https://www.credly.com/)
ID: SAFE-883921

Professional React Developer (Profession) — HTML Academy 2022-05 Verify ↗ (https://htmlacademy.ru/)

JavaScript: Architecture of Front-end Applications — HTML Academy 2021-12 Verify ↗ (https://htmlacademy.ru/)

Problem Solving (Advanced) & C# Certification — HackerRank 2023-08 Verify ↗ (https://www.hackerrank.com/certificates/)

EDUCATION & FORMAL QUALIFICATIONS

Bachelor of Engineering (B.E.) — Petroleum Engineering

2016 — 2019

Satbayev University (Kazakh National Research Technical University) (Almaty, Kazakhstan)

Associate of Science (A.S.) — Geological Methods of Prospecting and Exploration of Useful Minerals

2011 — 2015

Semey Geological Prospecting College (Semey, Kazakhstan)
